

5867 / Tall drum bag for rescue equipment

Color options:

A clever and functional bag with easy access and handling. 5867 is great for many purposes such as rope access, but was initially developed for rescue equipment.

- **Dimensions (open):** 35 x 80 cm (Ø x H)
- **Dimensions (closed):** 35 x 80 cm (Ø x H)
- **Lifting height:** 110 cm
- **Material (main):** 0.50 mm tarpaulin
- **Material (webbing):** 38 mm polyester
- A small see-through pocket for A5-sized paper is placed on the top of the bag/lid.
- This bag comes with an insert of hard plastic for making the bag stable, upright and give more light inside the bag.
- The bag uses 2 strong, high quality 50mm polyester lifting slings for hoisting.
- The top of the bag is closed by a zipper, which is secured by a small carabiner on the front.
- The bag comes with a comfortable attachable/detachable shoulder strap. This shoulder strap is adjustable to fit your preferences.
- The bag is shipped with a raincover to be used when stored outside for longer periods.
- The bottom is replaceable and can easily be replaced if needed.
- The hard bottom is made out of Polypropylene Log Plastic to keep the bag in shape and prolong the lifetime of the bag.

This model complies to the relevant parts of the following standards:

- EN 1492-1
- ISO 21898
