

9. USE INSTRUCTIONS

The protective equipment FALLSAFE should only be used as personal fall-protection systems in accordance with EN 363, as fall-arrest system, restraint system, workplace positioning system, and rescue system with the following tested and approved components:

- Height safety devices in accordance with EN 360
- Travelling fall-arrest devices on moveable guides in accordance with EN 353-2
- Lanyard with strap fall breakers in accordance with EN 354 / EN 355
- Belay and rescue devices in accordance with EN 341 / EN 1496
- Lanyard in accordance with EN 354
- Carabiners in accordance with EN 362

Combinations with other equipment objects are not permitted and endanger your safety

The anchorage point on which the protective equipment is fastened should be located above the user if possible and must satisfy the requirements specified in EN 795 (minimum strength of 10 kN).

- PT -

ATENÇÃO: A utilização de um equipamento Fall Safe On Line, Lda é apenas permitida após a leitura do manual de instruções na língua nacional.

1. APLICAÇÃO

Antes da utilização, deverão ser tomadas em consideração, as seguintes instruções de segurança:

- Manter este manual operacional com o produto e preencher o registo do equipamento (10.) dependendo da CATEGORIA de produto FALL-SAFE;
- Leia atentamente o manual de instruções;
- Entender e aceitar as possibilidades e as restrições do equipamento bem como os riscos associados com o seu uso;
- Este equipamento só deve ser usado por pessoas que estão familiarizadas com este manual de instruções e que se encontrem fisicamente e mentalmente sãos, tenham recebido formação e treino no uso de sistemas de proteção de queda;
- As condições médicas (problemas cardiovasculares, ingestão de medicamentos e ingestão de álcool) podem afetar a segurança do utilizador;
- As medidas (plano de emergência) devem ser especificadas para o resgate rápido antes da utilização do sistema de prevenção de queda. Atenção: Após a ocorrência de uma queda um período prolongado de suspensão pode causar lesões graves ou até morte (Trauma de interrupção);
- Usando o equipamento protetor as respectivas linhas de orientação de prevenção do acidente (p. ex. trabalhando em áreas onde há perigo de queda) devem ser cumpridas;
- Para implementação horizontal utilize unicamente passadeiras adequadas para esse propósito e que tenham sido devidamente testadas para diferentes situações (bermas afiadas, chapas metálicas com corrugações trapezoidal, vigas mestras de aço, cimento, etc.).

Atenção: Evite a queda em pêndulo!

- A combinação dos elementos específicos só é permitida como especificado neste manual operacional. As aplicações incorretas podem prejudicar a função de segurança – podendo resultar em lesões severas ou fatais;
- O equipamento de proteção foi desenvolvido para segurança pessoal e não pode ser usado para outros objetivos;
- Cada pessoa ativa nas áreas onde há perigo de queda é responsável por assegurar que a distância de conexão ao sistema de ancoragem é mantida tão curta quanto possível para prevenir a possibilidade de uma queda livre.

Se houverem incertezas acerca do uso correto do equipamento, contacte com o fabricante! www.fallsafe-online.com

ATTENTION: Use of the Fall Safe On Line, Lda. product is only permitted after the instruction manual has been read in the respective national language.

1. APPLICATION

Manufacturer's instructions!

2. MAINTENANCE

Manufacturer's instructions!

3. PUTTING ON THE HARNESS

- A- Open all insert buckles
- Hold the harness firmly on the back eyelet – determine where top (black) and bottom (orange) are
- B- Put on the shoulder harness like you would put on a vest
- C- Close the insert buckle in the chest area (3) – “click”
- D- Close the insert buckles of the leg loops (5) – “click”
- E- Tighten the harness in the area of the adjusting clasps (1) on the shoulder harness
- F- Tighten the harness in the area of the insert buckles (5) on the leg loops
- G- Tighten the harness in the area of the chest buckle
- H- Stow the projecting harness strap in the elastic loops
- Ensure that the rear fall-arrest eyelet (3. – Fig. K) is in the correct position

4. COMPONENTS

- (1)Dorsal D-Ring
- (2)Front D-Ring
- (3)Side Waist Positioning D-Rings
- (4)Reflective Stripe
- (5)Front Zipper
- (6)Leg strap
- (7)Comfort Backrest
- (8)Front Deluxe Buckle
- (9)Pockets

3. COLOCAÇÃO DO ARNÊS

- A- Desaperte todas as fivelas.
- Segure o arnês firmemente pelo ponto de ancoragem dorsal identifique o topo e a base do arnês.
- B – Coloque o arnês como colocaria um colete.
- C – Feche a fivela do peito na área de peito (3) – “clique”.
- D- Feche a fivela das fitas das pernas (5) – “clique”.
- E- Ajuste o arnês na área das fivelas de ajuste (1) nas fitas dos ombros.
- F- Ajuste o arnês na área das fivelas de ajuste (5) nas fitas das pernas.
- G- Ajuste o arnês na área das fivelas do peito.
- H- Coloque a fita remanescente nos passadores.

Assegure-se que o ponto de ancoragem dorsal (3. – fig. K) está na posição correta.

4. LEGENDA

- (1) Argola-D Dorsal
- (2) Laços Frontais
- (3) Argolas D laterais
- (4) Refletores
- (5) Fecho frontal
- (6) Fitas das pernas
- (7) Encosto confortável
- (8) Fivela Deluxe Frontal
- (9) Bolso

5. ETIQUETA

- A - Tipo de produto (arnês) (EN361+EN358)
- B - Corpo Notificado Artº11 Control
- C - PF leia as instruções antes da utilização.
- D - Marca
- E - Data de fabrico
- F - Normas aplicáveis
- G - Referência
- H - Numero de série do artigo.
- I - Localização da etiqueta.

9. USE INSTRUCTIONS

The protective equipment FALLSAFE should only be used as personal fall-protection systems in accordance with EN 363, as fall-arrest system, restraint system, workplace positioning system, and rescue system with the following tested and approved components:

- Height safety devices in accordance with EN 360
- Travelling fall-arrest devices on moveable guides in accordance with EN 353-2
- Lanyard with strap fall breakers in accordance with EN 354 / EN 355
- Belay and rescue devices in accordance with EN 341 / EN 1496
- Lanyard in accordance with EN 354
- Carabiners in accordance with EN 362

Combinations with other equipment objects are not permitted and endanger your safety

The anchorage point on which the protective equipment is fastened should be located above the user if possible and must satisfy the requirements specified in EN 795 (minimum strength of 10 kN).

- ES -

ATENCIÓN: El uso del producto Fall Safe On Line sólo está permitido después de que se hayan leído las instrucciones de uso en el idioma del respectivo país.

1. INDICACIONES DE SEGURIDAD / ADVERTENCIAS

Antes del uso deben ser observadas las siguientes indicaciones de seguridad y el estado actual de la técnica.

- Garde estas instrucciones de uso junto con el producto y complete cuidadosamente la hoja de prueba (10.) según el producto FALLSAFE.
- Leer las instrucciones de uso completamente.
- Comprender y aceptar las posibilidades y restricciones del equipo de protección así como sus riesgos al usuario.
- Este equipo de protección sólo debe ser usado por personas que estén familiarizadas con estas instrucciones de uso, estén sanas tanto física como psíquicamente y hayan sido instruidas en sistemas personales de protección contra caídas.
- Limitaciones de salud (problemas cardíacos o circulatorios, ingestión de medicamentos, alcohol, etc.) merman la seguridad del usuario.
- Antes de usar el aseguramiento contra caídas deberán ser fijadas medidas (plan de emergencias) para un rescate rápido. Atención: Después de una caída, quedar suspendido durante largo tiempo puede conducir a graves lesiones y causar hasta la muerte (trauma de la suspensión).
- Durante el uso del equipo de protección deberán ser cumplidas las respectivas prescripciones para la prevención de accidentes (p. ej.: trabajos en áreas con peligro de caídas).
- Para el uso horizontal sólo deben ser usados sujetadores adecuados para este tipo de uso y para el correspondiente borde de despiece (cantos filosos: chapa trapezoidal, vigas de acero, hormigón, etc.). Atención: ¡Evitar caída oscilante!
- La combinación de cada uno de los elementos sólo está permitida según las indicaciones de estas instrucciones de uso. Aplicaciones erróneas pueden conducir a una merma del funcionamiento seguro – ello puede tener como consecuencia lesiones graves o mortales.
- El equipo de protección ha sido desarrollado para el aseguramiento de personas y no deberá ser utilizado con otros fines.
- Cada persona que esté activa en áreas con peligros de caída, deberá preocuparse de que la unión con el sistema de fijación sea mantenida tan corta como posible, para evitar la posibilidad de una caída (7. – figura A - I).

¡Si surgiesen dudas sobre el uso seguro del producto, contacte al fabricante! www.fallsafe-online.com

ATTENTION : L'utilisation du produit Fall Safe On Line, Lda. n'est autorisée qu'après la lecture du mode d'emploi correspondant dans la langue du pays.

1. CONSIGNES DE SECURITE / MISES EN GARDE

Avant toute utilisation, tenir compte impérativement des techniques et des consignes de la technique.

- Conservé le présent mode d'emploi à proximité du produit et remplissez soigneusement la fiche de contrôle (10.) du produit FALLSAFE.
- Lire intégralement le mode d'emploi.
- Comprendre et accepter les possibilités et les limites de l'équipement de protection ainsi que les risques inhérents lors de toute utilisation.
- Cet équipement de protection ne doit être utilisé que par des personnes qui ont pris connaissance du présent mode d'emploi, qui sont saines de corps et d'esprit et qui ont suivi une formation spécifique sur les systèmes de protection anti-chute.
- Toutes restrictions médicales (problèmes cardiaques ou circulatoires, prise de médicaments, consommation d'alcool, etc.), sont susceptibles de porter préjudice à la sécurité de l'utilisateur.
- Avant toute utilisation des dispositifs anti-chutes, prendre toutes les mesures nécessaires (plan d'urgence) pour garantir un sauvetage rapide. Attention: Après une chute, une suspension prolongée peut entraîner de graves blessures, voire la mort (syndrome du pendu).
- Durant l'utilisation de l'équipement de protection, tenir compte des consignes de sécurité spécifiques (ex. travaux dans des zones comportant un risque de chute).
- Lors d'une utilisation à l'horizontale, n'utiliser que des moyens d'assurage spécialement prévus à cet usage en tenant compte des bords correspondant à des toitures (arêtes vives: tôles trapézoïdales, poutrelles en acier, béton, etc.). Attention: Eviter toute chute pendulaire!
- La combinaison des divers éléments n'est autorisée que dans le cadre prévu par le présent mode d'emploi. Toute utilisation erronée peut porter préjudice à la sécurité de fonctionnement du système – ceci peut alors entraîner de graves blessures, voire la mort dans certains cas.
- L'équipement de protection n'a été conçu que pour assurer la sécurité des personnes et ne doit pas être utilisé à d'autres fins.
- Toute personne se trouvant dans une zone comportant un risque de chute doit veiller à ce que la liaison avec le système d'ancrage soit aussi courte que possible pour éviter toute possibilité de chute. (7, Figure A - I)

Si certaines incertitudes demeurent quant à l'utilisation du produit en toute sécurité, n'hésitez pas à contacter le fabricant!

ATTENZIONE: L'utilizzo del prodotto Innotech è permesso solo previa lettura del manuale delle istruzioni nella lingua del paese corrispondente.

1. INDICAZIONI DI SICUREZZA / AVVISI

Prima dell'utilizzo, è necessario prendere in considerazione le seguenti indicazioni di sicurezza e lo stato attuale della tecnica.

--Conservare questo manuale delle istruzioni insieme al prodotto e compilare la scheda di prova (10.) secondo il prodotto FALLSAFE con cura.

--Leggere il manuale delle istruzioni in ogni sua parte.

--Comprendere e accettare le possibilità e le limitazioni dell'equipaggiamento di protezione, nonché i rischi durante l'utilizzo.

--Questo equipaggiamento di protezione può essere utilizzato solo da persone che conoscano bene questo manuale delle istruzioni, che siano in buona salute dal punto di vista fisico e psicologico e che abbiano ricevuto una formazione sui sistemi anti-caduta personali.

--Problemi di salute (cardiaci e di circolazione, assunzione di farmaci, alcool, etc.), ostacolano la sicurezza dell'utilizzatore.

--Prima di utilizzare la protezione, è necessario approntare misure (piani di emergenza) per un rapido salvataggio. Attenzione! Dopo una caduta, se la persona rimane sospesa per molto tempo possono verificarsi ferimenti seri o addirittura la morte (trauma da sospensione).

--Durante l'utilizzo dell'equipaggiamento di protezione personale, si devono osservare le norme per la prevenzione degli incidenti (ad es: lavori in zone a rischio).

--Per l'utilizzo orizzontale, si possono utilizzare esclusivamente cordini adatti a tale scopo e al corrispondente spigolo di caduta (bordi taglienti: lamiera grecata, travi d'acciaio, calcestruzzo etc.). Attenzione! Evitare cadute oscillatorie!

--La combinazione dei singoli elementi è permessa solo secondo le indicazioni di questo manuale delle istruzioni. Applicazioni errate possono ostacolare il funzionamento sicuro – provocando ferimenti seri o mortali.

--L'equipaggiamento protettivo è stato progettato per la sicurezza delle persone e non può essere utilizzato per altri scopi.

--Chiunque sia attivo in settori a rischio di caduta deve fare in modo che il raccordo con il sistema di ancoraggio sia più corto possibile, per evitare possibilità di caduta (7. – figura A - 1).

In caso di dubbi sul funzionamento sicuro del prodotto, contattare il fabbricante! www.fall-safe-online.com

WARNING: Användning av Fall Safe On Line, Lda. produkter är endast tillåtet efter att bruksanvisningen på användarens språk är genomläst.

1. ANVÄNDNING

Innan användning måste följande säkerhetsanvisningar och aktuell teknik beaktas.

--Förvara denna bruksanvisning tillsammans med produkten och fyll noggrant i testprotokollet (10.) i enlighet med produkten FALL SAFE.

--Läs hela bruksanvisningen.

--Förstå och acceptera skyddsutrustningens möjligheter och begränsningar så väl som riskerna förknippade med dess användning.

--Skyddsutrustningen ska endast användas av personer som är införstådda med denna bruksanvisning, som är fysiskt och mentalt friska och som är utbildade i användning av fallskyddssystem.

--Medicinska besvär (hjärtkärlproblem, intag av läkemedel, alkohol) kan påverka användarens säkerhet.

--Åtgärder (beredningsplan) måste specificeras för snabb undsättning innan användning av fall-förebyggande system. Se upp: Efter ett fall kan en längre period av hängande orsaka allvarliga personsador eller till och med dödsfall (hängtrauma).

--Vid användning av skyddsutrustningen måste respektive olycksförebyggande anvisningar (t.ex. arbete i områden där det finns risk för att falla) iakttas.

--För horisontell användning ska endast rep som är avsedda för detta användas, och som har testats för respektive falls kanter (vassa kanter, metallplåt med trapetsoid korrugering, stålbalkar, betong, etc.). Varning: Undvik pendelfall!

--Kombinationen av de specifika elementen är endast tillåtet som det anges i denna bruksanvisning. Felaktig användning kan försämra säker funktion – detta kan leda till allvarliga eller dödliga skador.

--Skyddsutrustningen är framtagen för personsäkerhet och ska inte användas för andra ändamål.

--Varje person som är aktiv i området där det föreligger fallrisk är ansvarig för att säkerställa att anslutningen till förankringssystemet hålls så kort som möjligt för att förebygga risken att falla (7. - A - I).

Om tveksamheter gällande säker användning av produkten uppkommer, kontakta tillverkaren!

MERK: Bruk av Fall Safe On Line, Lda.-produktet tillates kun etter at bruksanvisningen er lest på det respektive lokale språket.

1 - BRUK

Før bruk må følgende sikkerhetsanvisninger og teknologiens gjeldende standard tas i betraktning.

--Oppbevar denne bruksanvisningen sammen med produktet og fyll grundig ut testarket (10.) i henhold til produktet FALL SAFE.

--Les gjennom hele bruksanvisningen.

--Forstå og aksepter mulighetene og begrensningene til verneutstyret, samt tilknyttede risikoer.

--Dette verneutstyret bør kun brukes av personer som har lest gjennom denne bruksanvisningen, som er psykisk og fysisk friske og som er opplært i fallsikringssystemer.

--Medisinske tilstander (hjerterproblemer, medisinnntak, alkohol) kan innvirke på brukers sikkerhet.

--Tiltak (kriseplan) må spesifiseres for rask redning i forkant av bruk av fallsikringssystemet. Merk: Etter et fall kan en lengre opphengingsperiode medføre alvorlige eller livstruende skader (opphengingstraume).

--Ved bruk av verneutstyret må de respektive retningslinjene for ulykkesforebygging (dvs. arbeid i områder hvor det er fallrisiko) overholdes.

--For vannrett anvendelse må kun festesnoren som egner seg for dette brukes, og den må ha blitt testet for den gjeldende fallekanten (skarpe kanter, metallplater med trapesformede riflinger, stålbjelker, betong osv.) Merk: Unngå pendelfall!

--Kombinasjonen av spesifikke elementer tillates kun som angitt i denne bruksanvisningen. Feilaktig anvendelse kan forhindre sikker funksjon – dette kan medføre alvorlige eller livstruende skader.

--Verneutstyret er laget or personlig beskyttelse og kan ikke brukes til andre formål.

--Alle aktive personer i områder med fallrisiko er ansvarlige for å sørge for at forbindelsen til forankringssystemet er så kort som mulig for å forhindre muligheten for fall.

Dersom det oppstår usikkerhet rundt sikker bruk av produktet, må produsenten kontaktes.

ATTENTION: Use of the Fall Safe On Line, Lda. product is only permitted after the instruction manual has been read in the respective national language.

1. APPLICATION

Manufacturer's instructions!

2. MAINTENANCE

Manufacturer's instructions!

3. PUTTING ON THE HARNESS

A- Open all insert buckles

Hold the harness firmly on the back eyelet – determine where top (black) and bottom (orange) are

B- Put on the shoulder harness like you would put on a vest

C- Close the insert buckle in the chest area (3) – “click”

D- Close the insert buckles of the leg loops (5) – “click”

E- Tighten the harness in the area of the adjusting clasps (1) on the shoulder harness

F- Tighten the harness in the area of the insert buckles (5) on the leg loops

G- Tighten the harness in the area of the chest buckle

H- Stow the projecting harness strap in the elastic loops

Ensure that the rear fall-arrest eyelet (3. – Fig. K) is in the correct position

4. COMPONENTS

- (1)Dorsal D-Ring
- (2)Front D-Ring
- (3)Side Waist Positioning D-Rings
- (4)Reflective Stripe
- (5)Front Zipper
- (6)Leg strap
- (7)Confort Backrest
- (8)Front Deluxe Buckle
- (9)Pockets

3 - SETTE PÅ SELEN

A- Åpne alle innsettingsspennene

Hold selen godt fast på den bakre maljen – finne ut hvor øverste del (svart) og nederste del (gul) er

B- Ta på skulderselen som om du tar på deg en vest

C- Lukk innsettingsspennen i brystområdet (3) – “klikk”

D- Lukk innsettingsspennene til forslyngene (5) – “klikk”

E- Stram selen i området til justeringsklemmene (1) på skulderselen

F- Stram selen i området til innsettingsspennene (5) på fotslyngene

G- Stram selen i området til brystspennen

H- Plasser den beskyttende selestroppen i de elastiske slyngene

Kontroller at den bakre fallsikringsmaljen (3. – fig. K) er i riktig posisjon

4 – BILDETEKST

- (1) Bakre d-ring
- (2) Fremre slynger
- (3) Side – d-ring for midjeoposisjonering
- (4) Refleksstripe
- (5) Fremre glidelås
- (6) Fotstropp
- (7) Ryggstøtte
- (8) Fremre Deluxe-spenne
- (9) Lomme

5 – FINNE ETIKETTEN

- A - Produkttype (sele)(EN361+EN358)
- B - Meddelelsesbyrå for Art^o11 kontroll
- C - Les bruksanvisning før bruk
- D - Merkenavn
- E - Produksjonsdato
- F - Gjeldende EN-standarder
- G - Referansenummer
- H - Artikkelserienummer
- I - Etikett

9. USE INSTRUCTIONS

The protective equipment FALLSAFE should only be used as personal fall-protection systems in accordance with EN 363, as fall-arrest system, restraint system, workplace positioning system, and rescue system with the following tested and approved components:

- Height safety devices in accordance with EN 360
- Travelling fall-arrest devices on moveable guides in accordance with EN 353-2
- Lanyard with strap fall breakers in accordance with EN 354 / EN 355
- Belay and rescue devices in accordance with EN 341 / EN 1496
- Lanyard in accordance with EN 354
- Carabiners in accordance with EN 362

Combinations with other equipment objects are not permitted and endanger your safety

The anchorage point on which the protective equipment is fastened should be located above the user if possible and must satisfy the requirements specified in EN 795 (minimum strength of 10 kN).

- DE -

ACHTUNG: Die Verwendung des Fall Safe On Line-Produktes ist erst zulässig nachdem die Gebrauchsanleitung in der jeweiligen Landessprache gelesen wurde.

1. SICHERHEITSHINWEISE / WARNUNGEN

Vor Gebrauch müssen folgende Sicherheitshinweise und der aktuelle Stand der Technik berücksichtigt werden.

- Bewahren Sie diese Gebrauchsanleitung beim Produkt auf und füllen Sie das Prüfblatt (10.) je nach Produkt FALLSAFE sorgfältig aus.
- Die Gebrauchsanleitung vollständig lesen.
- Die Möglichkeiten und Einschränkungen der Schutzausrüstung, sowie deren Risiken beim Einsatz verstehen und akzeptieren.
- Diese Schutzausrüstung darf nur von Personen verwendet werden, welche mit dieser Gebrauchsanleitung vertraut, sowie körperlich bzw. geistig gesund und auf Persönliche-Absturzschutzsysteme geschult sind.
- Gesundheitliche Einschränkungen (Herz- und Kreislaufprobleme, Medikamenteneinnahme, Alkohol, etc.), beeinträchtigen die Sicherheit des Benutzers.
- Vor Verwendung der Absturzsicherung müssen Maßnahmen (Notfallplan) für eine rasche Rettung festgelegt werden. Achtung: Nach Absturz kann ein längeres Hängen zu schweren Verletzungen oder sogar zum Tod führen (Hängetrauma).
- Während der Verwendung der Schutzausrüstung sind die jeweiligen Unfallverhütungsvorschriften (z.B: Arbeiten in absturzgefährdeten Bereichen) einzuhalten.
- Für den horizontalen Einsatz dürfen nur Verbindungsmittel verwendet werden die für diesen Verwendungszweck und für die entsprechende Absturzkante (scharfe Kanten: Trapezblech, Stahlträger, Beton etc.) geeignet sind. Achtung: Pendelsturz vermeiden!
- Die Kombination der einzelnen Elemente ist nur nach den Angaben dieser Gebrauchsanleitung zulässig. Falschanwendungen können zur Beeinträchtigung der sicheren Funktion führen – dies kann schwere oder tödliche Verletzungen zur Folge haben.
- Die Schutzausrüstung wurde zur Personensicherung entwickelt und darf nicht für andere Zwecke verwendet werden.
- Jede Person, die in absturzgefährdeten Bereichen tätig ist, hat dafür Sorge zu tragen, dass die Verbindung zum Anschlagssystem so kurz als möglich gehalten wird, um die Möglichkeit eines Absturzes zu vermeiden (7. – Abbildung A - 1).

Sollten Unklarheiten zur sicheren Verwendung des Produktes auftreten, kontaktieren Sie den Hersteller! www.fallsafe-online.com

3. KLETTERGURT ANZIEHEN

- A. Öffnen Sie alle Schnallen.
- Halten Sie den Klettergurt von der hinteren Öse und stellen Sie fest, wo sich der Oberteil (schwarz) und Unterteil (gelb) befindet.
- B. Ziehen Sie den Schultergurt wie eine Veste an.
- C. Schließen Sie die Schnalle (3) an der Brust, so dass sie hörbar einrastet.
- D. Schließen Sie die Schnallen der Beinösen (5), so dass sie hörbar einrasten.
- E. Spannen Sie den Klettergurt bei Einstellklemmen am Schultergurt (1) an.
- E. Spannen Sie den Klettergurt bei Einstellklemmen an den Beinösen (5) an.
- G. Spannen Sie den Klettergurt bei der Brustschnalle an.
- H. Stecken Sie den herausragenden Gurt in die Elastikösen.
- Stellen Sie sicher, dass die hintere Absturzöse (Abb. K Seite 3) in der richtigen Position ist.

4. ERLÄUTERUNG

- (1) Hinterer D-Ring
- (2) Vordere Ösen
- (3) Seite – D-Ring einstellen
- (4) Reflektorband
- (5) Vordere Verriegelung
- (6) Beingurt
- (7) Komfortrückenstütze
- (8) Vordere Deluxe-Schnalle
- (9) Taschen

5. Wo finde ich den LABEL

- A. Produktart (Klettergurt) (EN 361+EN 358)
- B. Die Behörde zur Überprüfung von Art*11 benachrichtigen
- C. Vor dem Gebrauch die Bedienungsanleitung durchlesen
- D. Produktmarke
- E. Herstellungsdatum
- F. Einzusetzende EN-Standards
- G. Referenznummer
- H. Seriennummer Artikel
- I. Schild

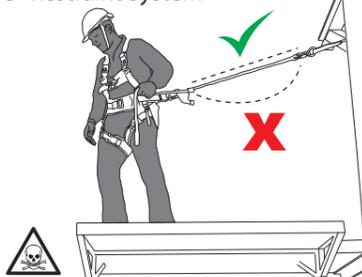

7 - APPLICATION EXAMPLES

2- Work Positioning System

EN795

3- Restraint System

4- Fall Arrest System

EN355
+
EN354

5- Fall Arrest System

EN360

1- Fall Arrest System

EN353 - 1
EN353 - 2

- Fall Arrest System
- Work Position and Restrain System
- Rescue System
- Suspension System

PRIOR TO EACH USE THE USER MUST INSPECT:
--Fall-arrest eyelets and anchorage eyelets (e.g. for wear)
--Buckles (e.g. ensure that they have safely locked in place -- "click"
--Harness and seams (e.g. check for cuts, abrasion or other damage)
--Also use the test sheet to ensure for yourself that the protective equipment is suitable for the application
ANNUAL INSPECTION:
--The protective equipment must be subjected to a visual and function check at least every 12 months by an appropriately qualified expert. Depending on the environment and the intensity of use it may be necessary to shorten the inspection intervals
--The inspection must be documented on the test sheet that must be stored along with the protective equipment
Function test: The insert buckles should not detach under tensile load when only one unlock mechanism is activated.
ATTENTION! DO NOT USE ANY LONGER IF:
--Damage or wear is visible on components such as seams and harness straps (cracks and cuts), plastic and or metal fittings, etc.
--Stress has occurred due to falling
--Damage is determined through the regular inspection
--The service life has elapsed
THE SERVICE LIFE
of your protective equipment depends on the respective use and conditions, care and storage.
When complying with the use guidelines the service life dating from the year of manufacture, with annual inspection by an expert is a maximum of 8 years after first use and 10 from manufacture.
Repairs, changes, or supplements to the protective equipment should only be executed by the manufacturer.

2 - MAINTENANCE

Prior to use, the following safety instructions and the current status of the technology must be taken into consideration.
--Keep this operating manual with the product and carefully fill out the test sheet depending on the product Fallsafe-online.
--Completely read the operating manual.
--Understand and accept the possibilities and restrictions of the protective equipment as well as the risks associated with its use.
--This protective equipment should only be used by persons who are familiar with this operating manual, who are physically and mentally healthy, and who have been trained in the use of fall-protection systems.
--Medical conditions (cardiovascular problems, intake of medicines, alcohol) can affect the safety of the user.
--Measures (emergency plan) must be specified for fast rescue prior to using the fall prevention system. Attention: After a fall a longer period of suspension can cause severe injuries or even death (suspension trauma).
--When using the protective equipment the respective accident prevention guidelines (e.g. working in areas where there is danger of falling) must be complied with.
--For horizontal implementation only use lanyard that are suited for this purpose, and that have been tested for the respective falling edge (sharp edges, sheet metal with trapezoidal corrugations, steel girders, concrete, etc.). Attention: Avoid pendulum fall!
--The combination of the specific elements is only permitted as specified in this operating manual. Incorrect applications can impair safe function -- this can result in severe or fatal injuries.
--The protective equipment has been developed for personal safety and may not be used for other purposes.
--Each person active in the areas where there is danger of falling is responsible for ensuring that the connection to the anchorage system is kept as short as possible to prevent the possibility of a fall.
If uncertainties concerning safe use of the product arise, contact the manufacturer
