

RESCUE &amp; DESCENT

# Miller Rescue And Evacuation Equipment (EUR)

Rescue and evacuation equipment.

## Overview

Feedback

### Key Features

During a rescue operation, safety is of paramount importance, but time and nature are often against you. A well-planned and rehearsed operation will result in a positive result.

Miller by Sperian offers a comprehensive range of technical rescue equipment from self-operated evacuation devices, to class-leading stretchers and body splints.

The equipment listed allows users to perform vertical lowers and raises of a stretcher-borne casualty, plus implement a diagonal cableway. It also includes provision for work and rescue in confined spaces.

### Recommended Industries/Use

- Other
- Wind Energy

### Hazards

- Fall from height

### Warranty Information

Our state of the art equipment provides the critical tool for worker protection, combining mobility with unsurpassed comfort.

At our ISO 9001 certified manufacturing facilities in Europe, we ensure that every Miller product is made in accordance with the standards and meets your exacting requirements.
